

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

# Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ### SECRETARY OF STATE'S OFFICE

HON. JULIUS C. GUNTER, Governor of Colorado, Capitol Building.

Esteemed Sir: I have the honor herewith to submit my biennial report for the years 1917 and 1918.

Respectfully yours,

JAMES R. NOLAND, Secretary of State.

Thursday, December 26, 1918.

To His Excellency, JULIUS C. GUNTER, Governor of Colorado.

Esteemed Sir: In presenting to you my biennial report for the years 1917 and 1918 I desire to briefly call your attention to some of the needs of the office and the reasons therefor.

In the first place, it is absolutely necessary that more room be provided for the transaction of business in this department. During the biennial period of 1915 and 1916 the grand total receipts of the office were \$613,775.13. The grand total during the biennial period of 1917 and 1918 was \$1,224,594.61—double the previous two years. This will give you an idea of the rapid growth of the business in this department.

The motor vehicle bureau is showing such decided growth that new legislation for its control is imperative. For this reason I have prepared an enactment for presentation to the legislature. This proposed new law is based on what I consider the best features of the best laws in the other states. I will take pleasure in transmitting a copy of same within the next few days. During the 1915 and 1916 biennial period, the total collections in the motor vehicle department were \$320,096.00. During the biennial period just closed, the total receipts were \$673,142.00—or more than double the previous two years.

The receipts in the flat tax or annual corporation license tax department totaled \$85,994.00 for the 1915 and 1916 period. During the years 1917 and 1918 I collected in revenues from this source \$245,836.00; other bureaus in the department of Secretary of State have shown marked increases.

It would be a waste of your valuable time for me to go into the matter of the increased cost of living during the past two years. This is merely to call your attention therefore to the relatively small salaries paid to the employees in this department. I therefore earnestly urge and request your aid in having these salaries adjusted to an equitable basis.

There is an almost universal demand for an equitable corporation law that will give protection to the investor and to honest capital alike. I have had prepared a so-called "Blue Sky" law which I think will meet all demands. This proposed measure has been carefully scrutinized by leading attorneys and by many experts. I will take pleasure in transmitting a copy of same to you within a few days. With highest personal regards,

Respectfully yours.

JAMES R. NOLAND, Secretary of State.
